

VERTIV™ HEROES OF POWER

Thales of Miletus

STATIC ELECTRICITY OBSERVED

Around the year 585 BC, this brilliant and inquisitive Greek learned the early principles of static electricity, when he rubbed amber (ilektron) and a piece of fur together.

Shocking, isn't it?

We fast forward to today and see how the **LIEBERT® EXM™ UPS** builds on the findings of these power pioneers to offer a solution that is:

- Efficient
- Scalable
- Intelligent
- Reliable
- Flexible
