February 25, 2019

SUBJECT: Geist ActiveAir End of Life Announcement

The End of Life (EOL) process for the Geist ActiveAir will begin immediately.

Key dates include:

- Final purchase date will be March 25, 2019.
- Vertiv will continue to provide existing customers with support and technical assistance on a reasonable commercial basis until March 25, 2020.

Lead-time delays may occur for ActiveAir SKUs if component shortages are experienced. Component constraints may limit the availability to fulfill orders received prior to March 25, 2019. Orders will be processed in the order they are received.

A similar cabinet containment solution is not available. Customers should be directed to the following Vertiv product offerings:

- [Thermal Management](#)
 - Ideal for customers experiencing challenges with heat management and humidity control.
 - The Thermal Management offering includes solutions for room, row, and rack cooling.
- [Aisle Containment](#)
 - Ideal for customers experiencing challenges with recirculation and bypass airflow.
 - The Aisle Containment offering improves data center infrastructure efficiency by creating a physical barrier between the hot and cold air streams.

If you have questions concerning this announcement, please contact me at the phone number / e-mail shown below.
