

FEATURES

- **USB 2.0 with Class Control**
Enables connection of USB devices from mice and keyboards through to graphics tablets, jog shuttles, joysticks and 3D explorers, alongside mass storage devices.
- **Redundant Network Operation**
The units are able to detect whether the network is in operation and can automatically change to its second network port if it detects a failure.
- **High Video Performance over VNC**
The VNC server can be accessed by a standard web browser but for superior graphical performance, a Real VNC viewer should be used.
 - View 2560 x 1600 or two 1920 x 1200 sessions
 - Real VNC server with RFB 3.3 support
 - Up to 256bit AES and RSA 2048 encryption
 - VM support and RS232 for power control
 - Supports 16 users simultaneously
 - Out of band BIOS level access
- **Ideal for Control Rooms**
 - Plug and play
 - 100m extension distance on single Catx; unlimited using standard IP network
 - 500m to 10km over fiber
 - Single link or single head configuration
 - Resolutions up to 2560x1600 @60hz
 - USB mass storage supported plus keyboard, mouse tablet
 - Redundant network operation

The Avocent® HMX 6000 Series is an IP-based high performance KVM (Keyboard, Video and Mouse) extender that forms part of the matrix solution. This enables you to locate your critical computing hardware in a secure and temperature controlled environment away from the user work station, while maintaining a pixel perfect desktop experience.

Truly unlimited extension distances

Extension distance is not limited to a single 100 meter cable length - If you need to extend further, simply add a 1GbE network switch to achieve even greater distances. The units are also fitted with SFP cages to accept fiber optic transceivers which enable much greater extension distances.

Single CATx cable or fiber for greater flexibility

This significant asset is what gives you the freedom to use the full variety of cable links that you typically find within an average structured cabling system. The result is that you can achieve reliable links, regardless of whether the cables are CAT5e, CAT6 or CAT7.

Real time control with perfect digital video

Using a spatially-lossless encoding system, with 1:1 pixel mapping. The digital video you receive is the same as the digital video leaving the remote computer.

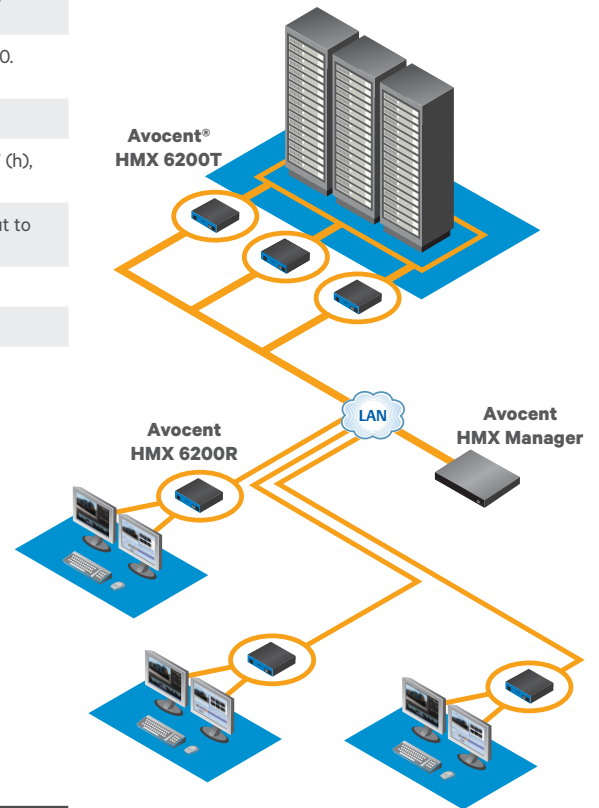

Security

For applications where security is of high importance, the system has the ability to disable the use of non-HID devices, meaning there is no need to physically block USB ports to prevent the use of mass storage devices.

Technical Specifications

Hardware Compatibility	All computers with DVI-D, USB, Audio, RS232 - requirement dependent.
DVI-D - Digital Visual Interface (digital only)	The system supports either two Single Link DVI resolutions to a maximum of 1920 x 1200 @ 60Hz or a single Dual Link to a maximum of 2560 x 1600 @ 60Hz VGA with adapter.
USB 2.0 with Class Control	Supports USB 2.0 devices (low, full and high speed). The system has a security feature allows the blocking of non HID devices. Isochronous devices are not supported (e.g. USB audio or video devices).
Digital Stereo Audio	The system transfers analog stereo audio (Line In/Line Out) via digital signaling between any transmitter/receiver pair. Additionally, the audio output of any transmitter can be multicast to many receivers.
RS232	RS232 can be passed between the units to a maximum baud rate of 115,200. RS232 is a point to point connection technology and cannot be multicast.
System Connections	1 x RJ45 for VNC access 1 x RJ45 and 1 x SFP.
Physical Design	1U compact case, robust metal construction. 198mm/7.92" (w), 44mm/1.76" (h), 150mm/6.0" (d), 1.1kg/2.7lbs.
Power	2.5mm DC jack (power adapter included),100-240VAC 50/60Hz, 0.8A, input to power adapter. 5VDC 20W output from power adapter.
Operating Temperature	0 to 40°C / 32 to 104°F.
Approvals	CE, FCC, UL.

Ordering Details - 6000

PART NUMBER	DESCRIPTION
HMX6200T-xxx	HMX TX dual DVI-D, QSXGA, USB, audio, SFP
HMX6200R-xxx	HMX RX dual DVI-D, QSXGA, USB, audio, SFP
HMX6210T-xxx	HMX TX dual DVI-D, QSXGA, USB, audio, SFP, VNC
PSC0005	Power Supply HMX 5000/6000 TX/RX
LC-MM-SFP	SFP Multi Mode Fibre Module LC
LC-SM-SFP	SFP Multi Single Fibre Module LC
RJ45-CATX-SFP	1000BASE-T Copper SFP Transceiver
RMK-81	19in Rackmount kit for 2 HMX 5000/6000
RMK-82	19in Rackmount kit for 1 HMX 5000/6000
RMK-83	19in VESA mount kit for 1 HMX 5000/6000
